

Improve Patient Quality of Life with Special Renal Care Offer

Chronic kidney disease (CKD) is a common problem in companion animals. While there's no cure, it is possible to slow the heavy-hitting progression of the condition by fighting the auto-destructive cycle of CKD.

Vétoquinol offers an innovative family of products that can work individually or as a team with other therapies to cover all your bases and help improve the prognosis and quality of life.

Azodyl®: enteric dialysis reduces azotemia

Epakitin®: chitosan-based intestinal phosphate binder that decreases phosphatemia

Renal K+®: potassium supplement for easily managing hypokalemia

Rubenal®: clinically shown to reduce the precursors to fibrosis expression in CKD

**Buy 3 Rubenal 75 mg AND 3 Epakitin (50g or 150g)
Receive 2 Azodyl and 2 Renal K+ FREE!**

Offer valid through April 30, 2010.

Sold to Practicing Veterinarians Only...
Only a clinic/hospital that has a licensed practicing veterinarian on staff in a veterinarian-client-patient relationship is eligible to purchase products. Vétoquinol USA, Inc. reserves the right to change, cancel or refuse this program at any time.
