

Game Ready Equine System Kits

The comprehensive Game Ready™ Accelerated Recovery System for equines is designed to aid in injury prevention as well as in the treatment of soft tissue injuries and post-operative rehabilitation. In addition to the Control Unit and Dual-Action Wraps, the system includes Single and Dual Connector Hoses, and several convenient accessories—including a protective Carry Bag for safely storing your important therapy equipment.

Here, we have conveniently pre-packaged kits to provide the basics to get you started with varying Wrap and Connector Hose options.
