Begin or expand your canine wellness program by testing general health chemistries and heartworm with only 2 drops of whole blood, with results in minutes. The Canine Wellness Profile including a Heartworm Antigen Test is ideal for general health screening, saving significant time and money.

- Establish baseline values for every patient
- Identify sub-clinical disease
- Enhance customer satisfaction
- Increase client compliance
- Increase practice revenue
- Improve time management
- Enrich quality of client communication
- Build loyalty and trust with your clients while building referrals

Boost your practice revenue while reducing costs

The VetScan VS2 and the Canine Wellness Profile will help you provide a higher level of patient care.

- Only 2 drops of whole blood
- Results reported in less than 12 minutes
- Intelligent Quality Control (iQC®) assures reliability on every panel
- Sample integrity alerts

For ordering information, contact your Authorized Abaxis Distributor or our Customer Service Center at 800-822-2947. To schedule a demonstration of the VetScan VS2, call 800-822-2947 or log on to www.abaxis.com/cwp

* Compared to published retail pricing for the Idexx® GHP plus the Snap® Heartworm Test.
